# JAPANESE WILL BE PROTECTED

The President Transmits Metcalf's Report to Senate and House.

"ENTIRE POWER OF THE GOVERNMENT"

Report Says That if Local Authorities Are Derelict or Negligent the Federal Powers Will "Promptly and Vigorously" Take a Hand in the Matter.

"I informed them if they were negligent or derelict in the performance of their duty, then the entire power of the Federal Government, within the limits of the Constitution, would be used, and used promptly and vigerously, to enforce observance of treaties, which, under the Constitution, are the supreme laws of the land, and to secure it and proper treatment for the people of a great and friendly power while within the territory of the United States."—Secretary Metcalf to the Mayor and Chief of Police of San Fran-States."-Secretary Metcaif to th Mayor and Chief of Police of San Fran

thorized and directed Secretary Metcalf to state that if there was failure to protect persons and property, then the entire power of the Federal Government within the limits of the Constitution would be used promptly and vigorously to enforce the observance of our treaty, the supreme law of the land, which treaty guaranteed to Japanese residents everywhere is the Union full and perfect protection for their persons and property; and to this end everything in my power would be done, and all the forces of the United States, both civil and military, which I could lawfully employ, would be employed, I call especial attention to the concluding sentence of Secretary Metcalf is as follows:

All considerations which may move a nation, every consideration of duty in the preservation of our treaty obligations, every consideration prompted by fifty years or more of close friendship with the Empire of Japan, would unite in demanding, it seems to me, of the United States Government and all its people the rullest protection and the highest consideration for the subjects of Japan,—V. H. Metcalf.
